- Source & Installation of Pallet Racking System
- Maintaining Production Operations
- RFP/RFQ Network Infrastructure
 - Production & Office
- Implementation of All Audio & Visual Components

Project Duration

- Eight Months

Project Overview

Relocation Strategies Cincinnati was selected on a consultant basis to create the budget, plan, and manage the relocation of Monti's Corporate Headquarters & Production Facility from Carthage, Ohio to Norwood, Ohio. Our main responsibility was the coordination of the physical move of machinery within the production facility and the finished goods/ raw materials contents. All while ensuring a sound transition in relation to over 900 hours of weekly production and meeting customer fulfillment demands. Additionally, the RSI team created RFP's for all vendor selection: IT vendor, industrial mover, rigging & trucking services, and packing materials vendor selection.

Overall, RSI was able to manage 145 van loads, 100 flatbed loads and 5 oversize load executions from origin to destination in a period of just under four weeks.
