- Implemented new business cultural standards for new campus

Project Duration

September 2006 - June 2007

Project Overview

RSI was contracted to plan and manage the collocation of 750 Cox Ohio Publishing (Dayton Daily News) employees from four locations into one. From these locations Cox Publishing produces 5 local daily papers and operated 24 hours per day. So the timing surrounding various departmental moves was very sensitive as the public expects their news and expects it on time.
