Project Duration

September 2007-January 2009

Project Overview

After FirstGroup purchased Laidlaw International Inc. in a deal worth \$3.6 billion that resulted in it selling on the U.S. company's iconic Greyhound intercity service, FirstGroup America decided to relocate its U.S. Headquarters from Centennial Plaza to 600 Vine in downtown Cincinnati. Originally, this project involved moving about 160 employees, but after months of hiring in anticipation of the new office location it expanded to include over 400 employees. Relocation Strategies Cincinnati was brought in to coordinate individual department requirements, plan and control the main project schedule, manage all move events, assist in new furniture selection, acquire temporary furniture for over 150 FirstGroup employees and contractors, selection of a commercial mover, selection of an IT support vendor, and ultimately be responsible for the decommissioning of the vacated Centennial office space.
